This November, Florida faces one of the greatest threats to private property rights in our state history: **Amendment 4** (also known as the *Hometown Democracy initiative*). If passed, Amendment 4 will strip all Florida property owners of the right to self-determine how their properties are used and the historic protections afforded by representative government. Join CPR for this special educational forum and learn more about the serious economic threat posed by Amendment 4 and efforts to educate Florida's electorate on the consequences of this **anti-property rights amendment**.

John Sowinski is a founding partner of **Consensus Communications** with more than 20 years experience in public policy, media relations, message development, and paid media management. John is regarded as Florida's **premier expert on statewide referendum campaigns**, having led seven successful statewide referendum campaigns. John is currently the **general consultant for the "No on 4" campaign**, which is opposing the "Hometown Democracy" amendment. ★
